EDUCATION

B.Tech, Information Technology   **CGPA: 9.05**
Oriental Institute of Science and Technology, Bhopal   2020-2024

AISSCE (XII), CBSE   **Percentage:63.4%**
Vidya Niketan, Maner, Bihar   2020

ICSE (X), CISCE   **Percentage:74.2%**
Don Bosco Academy, Patna, Bihar   2017

WORK EXPERIENCE

Frontend Developer Intern, CRTD Technologies   **2023**
Growupp: Tech Stack: **HTML, CSS, Bootstrap, JavaScript**

- Led a team of 4 members to develop user interface for the live project '**Growupp**' edtech website, referring **Figma** Design.
- Enhanced user experience through implementation of **animations** and **responsive** design techniques.
- Contributed to fostering better education, parental involvement, and informed career planning through the project.

Software Developer Intern, Primathon   **2023**

- Trained in **API** development, proficient in SQL and NoSQL **databases**, experienced with JavaScript,GitHub, VSCode.
- Acquired foundational skills in software development, emphasizing training and hands-on experience in these areas.

Trainee, Bharat Heavy Electricals Limited (BHEL)   **2022**
Employee Online Information System: Tech Stack: **Node.js, MongoDB**

- Developed a project report on the Employee Online Information System, while collaborating with the team.
- Gained practical experience in project management and enchanced my understanding of technologies.

PROJECTS

TaleTravels   **2022**
Tech Stack: **HTML, CSS, Bootstrap, Node.js, Express.js, MongoDB**

- Developed a feature-rich **full-stack web application** for exploring and sharing travel destination information.
- The application offers two acess levels. Implemented user **authentication** which provide verified users with **CRUD** functionality and non-verified users with view-only access.
- Integrated interactive mapping for users to visualize visited locations. Other funtionalities include commenting and reviews over the post for enhanced engagement.
- Designed and implemented a MongoDB **database** for efficient storage and retrieval of user-entered details.

Optical Character Recognition   **2023**
Tech Stack: **Python, OpenCV, Pytesserect**

- Developed a Python based **OCR application** in which the code effectively extracts text from images, ensuring accurate character recognition for diverse applications.
- Incorporated advanced image processing techniques which ensures extraction of text from images in challenging conditions.
- Utilized **bounding box detection** and visualization methods to present the recognized text on the image, offering a user-friendly interface for easy verification and analysis of OCR results.

TECHNICAL SKILLS

- **Languages:** Proficient in C/C++ , Familiar with Python, Data Structures & Algorithms in C++
- **Web Development:** HTML, CSS, Bootstrap,JavaScript, Node.js, Express.js, MongoDB, MySQL
- **CS Fundamentals:** Operating System, Computer Network, Object-oriented programming, DBMS, Software Design

KEY ACCOMPLISHMENTS

- Certification for College Academics **(Rank 1)**
- 5* in C++ at HackerRank
- 5* in C at HackerRank
- Solved 200+ problems on coding platforms

CERTIFICATIONS

- The Complete Web Development Bootcamp
- Programming in C++ from Coding Ninjas
- Structured Query Language from Coursera
- Python for everybody Specialization from Coursera
- Data Structure in C++ from Coding Ninjas

EXTRA-CURRICULAR ACTIVITIES

- **Sports:** Achieved first prize in singles categories at school-level badminton competition, advancing to district-level tournament.
- **Event Host:** Organized cultural events, promoting cultural awareness & fostering a lively, inclusive community atmosphere.
